4 December 2017

Mr Zelonij Vsevolod
President
Latvian Judo Federation

Dear Mr President, Dear Vsevolod,

Thank you for your hospitality during our visit in Riga to hold the practical sessions of our Academy.

My colleagues, Daniel Lascau, Tibor Kozsla, Mark Huizinga, Piero Camino and I were very happy with all the arrangements that your Federation made available to make this visit a success.

We would like also to thank your Agris Draviņš, who has been in touch with us all throughout the year and followed all the students to help them arrive to a successful result. Agris was very professional in his work and ensured that we had all the resources necessary to complete our work successfully.

We also complement you on the excellent Judo Centre where we held the Judo sessions. the Vsevoloda Zelonija Sports School dojo had all the requirements of a modern judo hall. This Judo hall was professionally equipped with good ventilation and clean dressing rooms. We found particularly useful the sprung floor as most of our students were not young and were able to withstand our rigorous programme much better.

We were very pleased to hear that you are running a very successful judo school in these facilities. We are sure that with the help of the newly qualified coaches, these facilities of international standards and the enthusiasm of your committee, you will see more international activities which will contribute greatly to the development of Judo in Latvia.

We are all keen to return next year to hold a First and Second level IJF Academy courses again on regional level.

Best regards and season's greetings to you your committee and family.

Envic

Envic Galea
Director IJF Academy
